Arc desk divider

Pricing

Arc is priced by configuration. Each fixed kit includes pre-routed PET panels, powder-coated white brackets, and construction-grade adhesive tape. For long-term hold, Liquid Nail or a comparable adhesive is required (installer supplied). Finish selection determines the final SKU. Custom PET colors available; contact Loftwall for pricing and lead times.

Typicals

Arc SKUs follow a consistent naming structure based on configuration, size, orientation (if applicable), and PET finish. Wrap kits use the format ARC-WRAP-[SM/MD/LG]-[COLOR], while Corner kits follow ARC-CORNER-[SM/MD]-[LT/RT]-[COLOR]. Custom kits will include -CUS at the end. Each kit includes all panels, powder-coated brackets, and construction-grade adhesive tape. Arc also requires Liquid Nail or a comparable adhesive for long-term bonding—installer supplied. What you see is what you get.

What's Included

Each Arc kit includes everything needed for installation; no guesswork required.

- 1 PET panel (Corner) or 3 PET panels (Wrap), routed for bracket installation
- 2 brackets (Corner) or 4 brackets (Wrap), powder-coated steel
- Construction-grade adhesive tape (Tape-03)

Note: Liquid Nail or a comparable construction adhesive is required for long-term panel bonding. This is not provided and must be supplied by the installer.

Finishes

Available in a curated selection of Loftwall's 9mm PET colors (total panel thickness = 18mm). Not all PET finishes are offered—see Material Finish Guide for approved options.

How to Price Arbor Wallcovering

- **Linear-Foot Pricing (LF):** Use the List Price/LF column when you know your total run length in feet. It assumes full-height panels (no cuts) and tells you exactly what you'll pay per foot of wall.
- **Square-Foot Pricing (SF):** Use the List Price/SF column when you're budgeting by wall area (panel width × height). This assumes panels aren't cut—once you trim a panel, leftover pieces may not fit elsewhere.
- **Panel Dimensions:** Each 2×8 panel is 24" W × 96" H = 15.5 sq ft of coverage; each 2×10 panel is 24" W × 120" H = 19.37 sq ft. These areas drive the SF calculation below.

Size	List Price	Total LF	Total SF	List Price/LF	List Price/SF

Tempo wallcoverings

Pricing

To price a Tempo wall grid, select a thickness-based SKU. While attached panels are available in a variety in finishes and patterns, all panels are priced the same.

Typicals

Tempo wall grids are available with eight, 9mm or 12mm acoustic felt panels. Tempo is available in 24 finishes noted as -XX- in the product SKU.

TM-RAW-WALL-XX

Dimensions	48" W x 49" H
Panel(s)	(8) Tempo Panels
9mm Price	\$1,250.00
12mm Price	\$1,335.00

How to Price Tempo Wallcovering

- **Linear-Foot Pricing (LF):** Use the List Price/LF column when you know your total run length in feet. It assumes full-height ceiling grid panels (no partial cuts) and shows what you'll pay per foot of ceiling span.
- **Square-Foot Pricing (SF):** Use the List Price/SF column when you're budgeting by ceiling area (panel width × length). This assumes panels aren't trimmed—once you cut a panel, leftover pieces may not fit elsewhere.
- **Panel Dimensions:** Each panel is 48" W × 192" L (4 ft × 16 ft) = 16 sq ft of coverage. These areas drive the SF calculation below.

Size	List Price	Total LF	Total SF	List Price/LF	List Price/SF
9mm White Ash	\$1,250.00	4 ft	16 sq ft	\$312.50	\$78.13
1/2" White Ash	\$1,335.00	4 ft	16 sq ft	\$333.75	\$83.44

How to Price Layer Acoustic Baffles

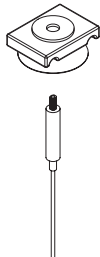

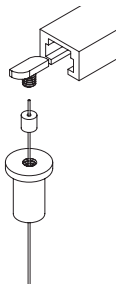

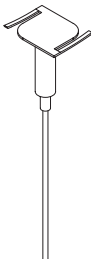

Below is the cost per square foot of finished ceiling coverage, based on one panel plus its on-center spacing. Pick the column matching your desired spacing to see exactly what you'll pay per ft² of ceiling area.

Size	List Price	Dimensions (in)	6" Spacing (\$/sq ft)	12" Spacing (\$/sq ft)	24" Spacing (\$/sq ft)
Small	\$750.00	47.5" × 11.75"	\$121.55	\$81.36	\$44.82

How to Price Pocket Acoustic Baffles

Below is the cost per square foot of finished ceiling coverage, based on one Pocket panel plus its on-center spacing. Pick the column matching your desired spacing to see exactly what you'll pay per ft² of ceiling area.

Size	List Price	Dimensions (in)	6" Spacing (\$/sq ft)	12" Spacing (\$/sq ft)	24" Spacing (\$/sq ft)
Small	\$240.00	47.5" × 11.75"	\$80.71	\$41.47	\$18.59
Medium	\$370.00	72" × 11.75"	\$109.10	\$54.57	\$27.29
Large	\$485.00	92" × 11.75"	\$89.25	\$48.01	\$23.19

Note: "6" Spacing" means panels hung 6 inches on-center (panel thickness + 6" equals the module width). The 12" and 24" columns show how your cost per ft² decreases as panels are spaced farther apart.

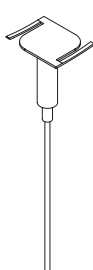

Mounting

Pocket needs to be ceiling mounted with either a ceiling coupler, ceiling track or clip.
