

MAKE SPACE. WORK BETTER.

LOFTWALL

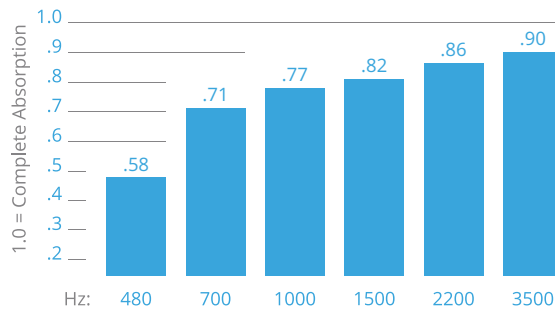

FLOX is a flexible acoustical partition designed to enhance spaces by reducing sound and eliminating harmful VOCs from the air.

FLOX

LOFTWALL

FLOX Acoustical Performance*

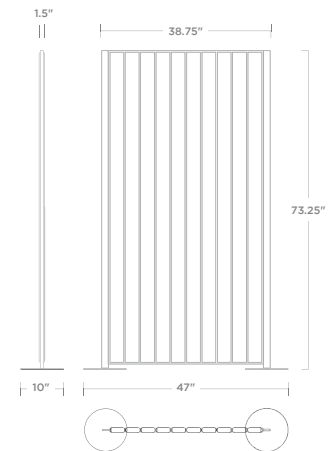

Speaking
300-500Hz

Phones
500-2000Hz

Music
1000-3000Hz

Typing
2200-3500Hz

FLOX Dimensions

*Sound reduction levels dependent on divider configuration, location and room acoustics

FLOX

Design Features

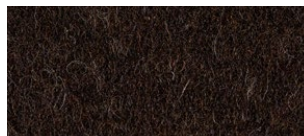

- 100% Premium wool felt surface
- Tackable surface
- NRC .65 sound absorption*
- Available in 3 standard colors
- Multiple panels can connect
- Powder-coated frame options

Environmental Features

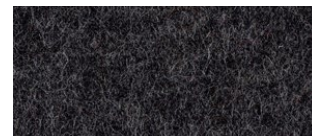

- Neutralizes VOCs
- Frame made from up to 75% recycled content
- Fire rated: CLASS B DIN EN 13501-1
- Wool felt is 100% biodegradable and recyclable
- No chemical irritants
- Free of harmful substances
- Wool contributes to LEED® MR Credit 6: Rapidly Renewable Materials
