WEB
Let some light in

LOFTWALL

Web is an intricate design of overlapping and connecting elements providing a unique visual appearance. Web delivers perceived privacy without completely obstructing natural light in a workspace.

FUNCTIONAL ART
AT ITS FINEST

Make a statement in your space while defining it. Our award winning Web can delineate areas of interest and focus in a space. Not all workspaces are equal, and they certainly shouldn't all look the same. That's why we designed Web to give designers the flexibility to make their mark while increasing function.
