

How can I buy a Loftwall?

Products are typically sold through furniture dealers across the US & Canada. To find a dealer near you please visit our Rep locator page and select your state, or you may contact us at 214.239.3162 or email quotes@Loftwall.com.

Architects & Designers may specify and purchase Loftwall directly by contacting your local representative and submitting information for a quote.

What are your height options?

Our standard height walls are 78" tall and our low height walls stand at 53" tall, Heights can be customized up to 94" tall.

Can you customize the walls?

Yes, our system can customize for heights and widths in most cases. Any thing taller than 84" we must reinforce the base plates for stability. Please contact us if you have a custom application.

Does the choice of inserts affect the price?

Yes, we offer several grades of finishes for the panels.

Are Loftwalls completely freestanding?

Yes, we also offer several options for permanent mounting of our walls to floors, ceilings and walls. We also offer caster base for mobility.

Can multiple Loftwalls connect?

Yes, we have a LINK post that can easily connect several walls at a 90 degree angle to make "L" or "T" wall configurations. We can also connect walls at 45° or 60° angles.

What materials are the frames made from?

The frames are made from aluminum with a standard anodized finish. Custom powder coated colors are available.

Do you offer chalkboard panels?

Not at this time, but we do offer a white dry erase board, in magnetic and non-magnetic options.

Can I use 3rd party materials in your walls?

Yes, the channels in the walls can fit panels that are .25" thick nominal thickness.

Can you color match the panels?

In some cases we can. Please provide a PMS color or swatch/sample if you would like us to review options to match.

Can you add a logo or custom print the panels?

Yes, we provide full color printing and cut vinyl designs for logos and text. Please submit a logo or graphics prior to ordering so we can provide a quote.

Do you offer panel samples?

Yes, if there are stock panels you are interested in we can provide sample chips, we will gladly send you samples once you finalize your selection of wall(s) and panels.

Is a Loftwall easy to assemble?

Yes, our products are considered easy (by furniture industry standards). We have videos on YouTube that show assembly taking about five minutes. Bases are screwed to the bottom of the end-posts. The frame components locks together with an integrated fastener manufactured into each frame component. Panels slide into the frame.

Are Loftwalls suitable for outdoor use?

In some instances we can recommend them for limited outdoor use. The aluminum frame can withstand limited exposure to water.

Can I just buy the frame only and source other materials?

Yes. As long as the material is .25" thick, it will sit within the frame.

Can I apply fabric or wall covering to the panels?

We offer adhesive panels for DIY projects.

How does this ship? Where can you ship and at what cost?

Our standard product disassembles and ships within one tube and one box. The tube houses the frame components and panel materials are packed into a box. We ship anywhere UPS goes, including international. The shipping and handling costs are based on weight and destination. Shipping and handling for 1-2 walls is generally \$85.00 EACH for up to 2 walls. An order for 3 or more walls we ship freight and must be quoted based on destination.

Do you offer designers a discount?

Discounts vary, please email us for more information.

Do you accept purchase orders (PO)?

Yes, we can accept a PO, but prepayment is required on the first three orders and deposits are required on orders greater than \$5,000 NET and custom orders.
