01

Why Arbor Reserve

01 / WHY ARBOR RESERVE

Quiet you can feel. Finish you can specify.

Choose Arbor Reserve when acoustic performance and material coordination need to work together. Reserve pairs Arbor's proven wood-slat construction with four premium wood veneer finishes and four PET backer options, giving you more control over the final palette.

- 01 Up to NRC 0.80 sound absorption
- 02 Four premium wood veneer finishes
- 03 Four Reserve PET backer options
- 04 Wall or ceiling mounted
- 05 Class B fire rated

Installing on the wall or ceiling: Direct-mount with screws or adhesive, or use furring strips for uneven walls. Detailed mounting guidance and ceiling applications: loftwall.com/arbor

02

Configure

02 / CHOOSE

Choose your depth.

	ARBOR	ARBOR SLIM
Best for	↑ Absorption	↓ Profile
NRC	0.80	0.70
Slat depth	1/2"	3/16"
PET Depth	3/8"	1/4"
Total Depth	7/8"	7/16"
Mounting	Wall or ceiling	Wall or ceiling

Arbor Reserve is available in two depth options. Choose Arbor for maximum absorption or Arbor Slim for a thinner profile.
