

# VACCINE READY

## PRODUCT LOOKBOOK

One week after receiving FDA authorization, 2.9 million doses of the Pfizer-BioNTech vaccine are being distributed across the US. By the end of 2020, 20 million Americans are expected to receive their first dose of the vaccine. And by March 2021, 100 million Americans are expected to be vaccinated.

To handle this mass rollout, satellite, temporary and off-site vaccination clinics are being created all across the country.

And as these clinics open, we're ready to help. With healthcare grade cleanable walls shipping in just 5 days, clinics can open quickly, staffs can work confidently, and patients can be vaccinated safely.

# SPLIT

**Frame Finishes**

Standard frames are anodized aluminum. Glossy White and Matte Black finishes are available for a 20% up-charge.
